Actual Gas Sales volume in February 2004

Tokyo Gas Co., Ltd.

Total gas sales volume by Tokyo Gas Co., Ltd., for the month of February 2004 was 1,081.5 million m³ (cubic meters), up by about 14.7 million m³ (or 1.4%) from February 2003.

In the residential sector, volume totaled about 397.9 million m³, down by 1.4 % from February 2003. The decrease was due to the higher temperature than last year, which caused less demand in hot water and heating.

In the business sector (consisting of commercial, public, and medical use), volume amounted to about 241.5 million m³, up by 2.4% from February 2003. The increase was due to added consumption by new customers, although demand in both hot water and heating was less due to the higher temperature than last year.

In the industrial sector, factors such as increased consumption by existing customers brought volume to about 330.9 million m³, up by 1.9 % from the previous February.

Volume for wholesale supply to other gas companies totaled about 111.2 million m³, up by 8.4 % from February 2003, due to an increased off-take volume by contracted gas companies.

On a cumulative basis, the volume from April 2003 to and including February 2004 totaled 10,097.3 million m³, an increase of 7.7 % from the same period in FY2002.
