

Tokyo Gas Co., Ltd.

March 19, 2011

11:00 (JST)

Update on the recovery of the gas business in Hitachi area (as of March 19, 11:00JST)

Tokyo Gas Co., Ltd. has been tackling with all our strength for restoring gas supply facilities in Hitachi, which is part of our supply area, affected by the Tohoku-Pacific Ocean Earthquake on March 11, 2011.

As a result of our utmost efforts, as of on March 18 at 23:45 p.m., we have managed to restore gas supply for all our customers of 30,008 which have been suspended, except for those whose houses have been collapsed or those to whom we cannot resume gas supply due to some other causes than the earthquake.

We express our deepest sympathy for all the people affected by the Tohoku-Pacific Ocean Earthquake. We appreciate it very much for the kind understanding and cooperation from our customers and agencies concerned, which have supported us in restoring gas supply earlier than scheduled originally.

#### No. of Recovered Gas Supply

No. of gas supply interruptions on March 11, 2011	30,008
No. of gas supply recovered today	13
No. of gas supply recovered as of today(cumulative)	30,008

Note: There are no supply interruptions in other Tokyo Gas area.

: Both “No. of gas supply recovered today” and “No. of gas supply recovered as of today (cumulative)” include customers with recovered gas supply and customers to whom Tokyo Gas delivered the brochure informing the availability of gas supply, where Tokyo Gas is ready to resume gas supply at any time.
