Commencing construction of first plant in energy service business for Gas Malaysia  
Energy Advance Sdn Bhd.

Tokyo Gas Co., Ltd.  
Energy Advance Co., Ltd.

GAS MALAYSIA ENERGY ADVANCE Sdn. Bhd. (Hereinafter “Gas Malaysia Energy Advance”) jointly founded by Energy Advance Co., Ltd. (President: Kenichi Enkaku. Hereinafter “Energy Advance”), which is a 100% financed subsidiary of Tokyo Gas Co., Ltd. (President: Michiaki Hirose. Hereinafter “Tokyo Gas”), and Gas Malaysia Bhd has concluded a contract with regard to energy services with Toray Group (Malaysia) \* (Toray Industries (Malaysia) Sdn. Bhd., Penfibre Sdn. Bhd., Penfabric Sdn. Bhd., and Toray Plastics (Malaysia) Sdn. Bhd. Hereinafter “Toray Group (Malaysia)”), which is a financed subsidiary of Toray Industries Inc., Japan (President: Akihiro Nikkaku) and commenced construction of an energy plant. This project is the first energy service business carried out by Gas Malaysia Energy Advance.

Energy service is a service in which an energy service operator, in a lump and in an efficient manner, provides heat, electricity, and the like generated by use of gas cogeneration systems, boilers, and other facilities for air conditioning and water treatment so as to solve various problems related to energy for the client.

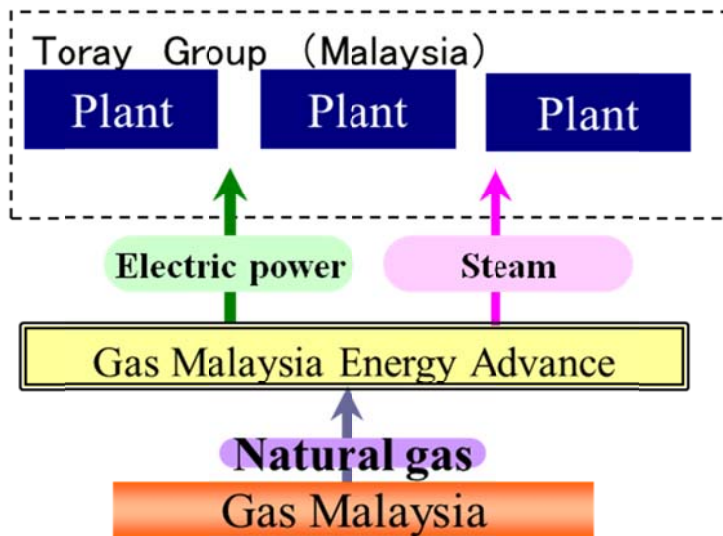

In the energy service of this project, Gas Malaysia Energy Advance will install a 32-MW class gas turbine cogeneration system which uses natural gas as fuel procured from Gas Malaysia (two 16 -MW turbines with reheating boilers) in the premises of Toray Group (Malaysia) to provide electricity and steam. Gas Malaysia Energy Advance is responsible for all the phases of the project, from system design, construction, and procurement of fuel to facility maintenance and will receive energy service charges from Toray Group (Malaysia). By introducing this service, Toray Group (Malaysia) will be able to reduce the energy costs, the energy by approximately 20%, and the CO<sub>2</sub> emission by approximately 30% with small amount of investment in new facilities

According to the plan, the period in which electricity and steam will be supplied is to be 15 years starting from 2016.

The Tokyo Gas Group contributes to provide energy solutions to customers developing business in Southeast Asia and North America, and to build local energy infrastructure, making use of group's total energy business technology and know-how. In addition, we intend to challenge for a development of the value chain in foreign countries through the alliances with local energy companies and other entities.

\*Ratios of capital contribution: Toray Industries (Malaysia) Sdn. Bhd: Toray 100%. Penfibre Sdn Bhd: Toray 100%. Penfabric Sdn Bhd: Toray 100%. Toray Plastics (Malaysia) Sdn. Bhd: Toray 93.85%

[Scheme of this project]

[Overview of Gas Malaysia Energy Advance]

Name	GAS MALAYSIA ENERGY ADVANCE Sdn. Bhd.
Foundation	April 18, 2014
Place of head office	Selangor, Malaysia
Capital	4 million Malaysian ringgit
Capital structure	Energy Advance: 34% Gas Malaysia: 66%
Business	Energy service business

[About Energy Advance]

Name	Energy Advance Co., Ltd.
Foundation	July 1, 2002
Place of head office	21 <sup>st</sup> floor, Tokyo Gas Hamamatsucho Honsha Bldg., 5-20, Kaigan 1-chome, Minato-ku, Tokyo
President	Kenichi ENKAKU
Capital	3 billion yen
Capital structure	Tokyo Gas Co., Ltd.: 100%
Business	On-site energy service business Regional energy service business (regional air-conditioning business) Cogeneration facility construction and maintenance Commercialization of green business
