

# Corporate Governance

Tokyo Gas works to ensure continued development while consistently earning the trust of customers, shareholders, and society. Based on this philosophy, we aim to achieve a continuous increase in our corporate value through enhancing corporate governance systems. We are endeavoring to develop systems with a commitment to management legality, soundness, and transparency. Tokyo Gas continues to emphasize the importance of accurate and prompt decision making, efficient business operations, strengthening of auditing and monitoring functions, and clarification of management and executive responsibilities.

## Board of Directors

In principle, the Board of Directors meets once a month to discuss and decide important matters regarding business operations. Directors must submit reports to the Board of Directors regarding the status of execution of their duties periodically and when deemed necessary, allowing the Board to monitor the performance of directors.

The Board of Directors comprises 11 directors, 3 of whom are outside directors. In addition, the term of directors is set at one year with the goal of further clarifying managerial responsibility.

### Outside Directors

In accordance with their individual experience and knowledge, the outside directors strive to secure the soundness and appropriateness of deliberations and decisions regarding business execution. From an independent viewpoint, the outside directors monitor the performance of duties by the directors and exercise their authority at meetings of the Board of Directors. In this way, the outside directors contribute to the improvement of the rationality and objectivity of the company's business execution and of the deliberations and decisions of the Board of Directors.

In making judgments about matters related to the independence of outside officers, such as capital, transactions, and relationships, we comprehensively verify that they are unlikely to have conflicts of interest with general shareholders and they are in a position that enables them to be objective and neutral, and on that basis we make a judgment on their independence. (The company discloses the Independence Standards for Outside Directors on its website: <http://www.tokyo-gas.co.jp/IR/english/gvnnnc/pdf/independence.pdf>) The Advisory Committee has confirmed that none of the outside officers has a material conflict of interest with the company—in regard to capital, transactions, or relationships—and has confirmed their independence in accordance with the above standards. The committee's decision has been reported to the Board of Directors, which has designated them as independent officers and reported that designation to the stock exchanges on which the company is listed.

### Realizing Accurate and Rapid Decision Making, and Efficient Business Execution

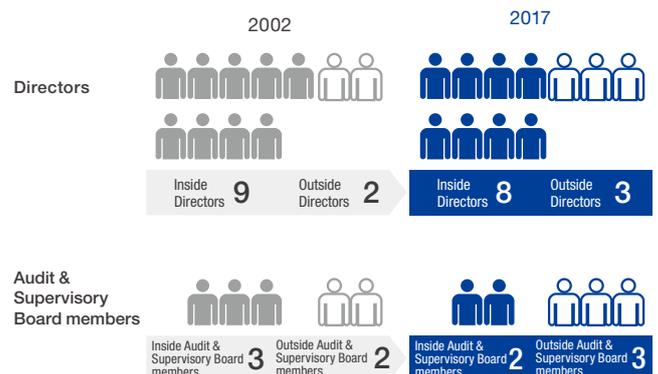

The Corporate Executive Committee, which meets weekly as a general rule, deliberates on provisions stemming from Board of Directors' resolutions and important management-

related issues. The company has introduced an executive officer system for business execution in accordance with decisions of the Board of Directors. Substantial authority has been delegated to executive officers in their designated areas of responsibility, while directors, as appropriate, receive reports on the status of execution from executive officers and monitor the executive officers. In addition, executive officers report to the Board of Directors as needed. (To clarify management responsibility and executive responsibility, the terms of office of directors and executive officers have been fixed at one year.)

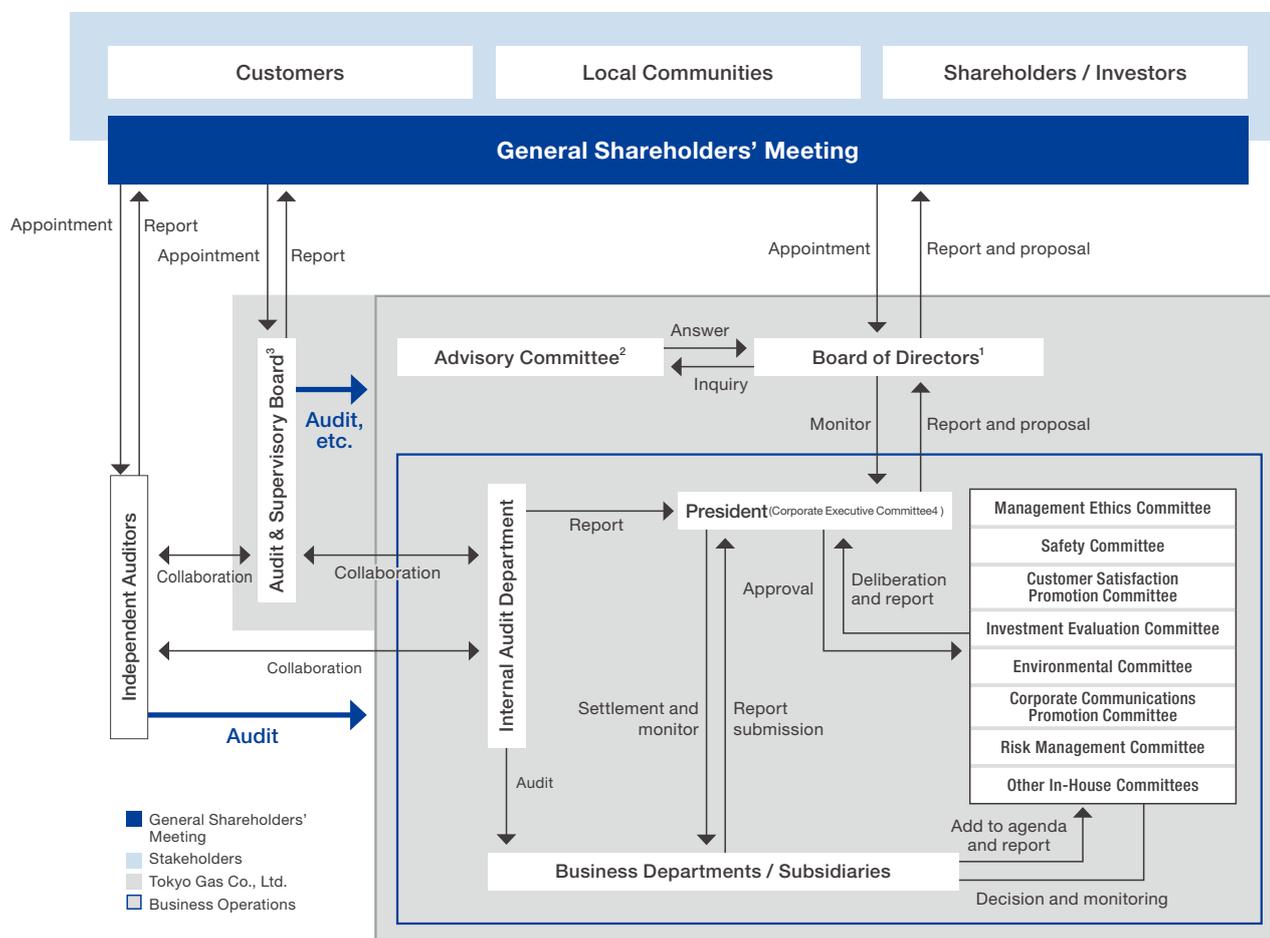

### Analysis and Evaluation of Effectiveness of the Board of Directors

To maintain and enhance effectiveness of the Board of Directors, the Board analyzed and evaluated its effectiveness in fiscal 2016 as last year. Specifically, the Board took into account of self-evaluation of each director in the form of a questionnaire, and discussed its outcome and the Board's effectiveness. According to the results of the questionnaire, no item scored less than 4 on average in the five-point scale, and no item showed a decline of 0.5 or more on the average score. It has therefore been confirmed that no major improvement is needed. Concerning the items related to the Board's function as a place to discuss medium- to long-term policies and strategies, the scores were lower than those of other items again, as in fiscal 2015. We will further enhance the effectiveness of the Board of Directors in this area, by taking into account their numerous discussions in fiscal 2016.

### Progress in Governance Composition of the Board of Directors

## Corporate Governance System

1 Board of Directors: 11 directors (3 outside directors and 8 internal directors), 5 Audit & Supervisory Board members (3 outside auditors and 2 internal auditors)

2 Advisory Committee: 3 representatives from outside directors and outside Audit & Supervisory Board members, Chairman (1), and President (1)

3 Audit & Supervisory Board: 5 Audit & Supervisory Board members (3 outside auditors and 2 internal auditors)

4 Corporate Executive Committee: President, 2 Executive Vice Presidents, and 11 Senior Executive Officers (3 of the representative directors also serve as President and Executive Vice Presidents)

### Overview of Corporate Governance System (As of June 29, 2017)

Number of directors	11	Participation of outside directors in determination of director candidates	Yes
Average age of directors	62.0	Number of meetings of Board of Directors*	12
Number of outside directors	3	Attendance rate of outside directors at meetings of Board of Directors*	100%
Number of Audit & Supervisory Board members	5	Term of office of directors	One year
Number of outside Audit & Supervisory Board members	3	Performance-linked remuneration	Yes
Number of independent officers	6	Share purchase system to reflect the perspective of shareholders in management	Yes
Participation of outside directors / outside Audit & Supervisory Board members in determination of remuneration	Yes	* Total for the period from April 2016 to March 2017	

### Working to Promote Transparent Management and Create a Flexible and Open Corporate Culture

In fiscal 2002, the company established the Management Ethics Committee, chaired by the President. We also formed in-house committees to address issues that are important from a management perspective, such as compliance,

safety, customer satisfaction, and risk management. This structure facilitates the sharing of information within the group as well as deliberations and adjustments regarding the group's overall direction.

## Audit & Supervisory Board Members

The Audit & Supervisory Board members meet once a month as a general rule and otherwise as needed. The 5 members of the board, which include 3 outside Audit & Supervisory Board members, conduct deliberations and make reports. In line with the Corporate Auditor's Audit Standards, each Audit & Supervisory Board member conducts effective audits through the following principal initiatives.

The Audit & Supervisory Board members attend meetings of the Board of Directors, the Corporate Executive Committee, and other important meetings. They state their opinions relating to legality and other perspectives when necessary.

The Audit & Supervisory Board members conduct research into the state of operations at the head office, business offices, and subsidiaries and hold discussions with directors to exchange opinions, both on a regular basis and otherwise as needed.

In regard to the internal control system for financial reporting, the Audit & Supervisory Board members receive evaluations of internal control and reports on the status of audits from the Board of Directors, etc., and KPMG AZSA LLC.

### Outside Audit & Supervisory Board Members

The outside Audit & Supervisory Board members conduct audits monitoring from an independent viewpoint and contribute to improving the rationality and objectivity of the company's business execution and of the deliberations of the Board of Directors through their statements at meetings of the Board of Directors. In addition, through their statements and the exercise of their majority voting rights at meetings of the Audit & Supervisory Board, the outside Audit & Supervisory Board members contribute to assuring and improving the legality, appropriateness, rationality, and objectivity of the audits by the Audit & Supervisory Board members. In addition, with the objective of assuring the effectiveness of audits by the Audit & Supervisory Board members, the company invites outside Audit & Supervisory Board members who have a substantial degree of knowledge about finance and accounting.

In making judgments about matters related to the independence of outside officers, such as capital, transactions, and relationships, we comprehensively verify that they are unlikely to have conflicts of interest with general shareholders and they are in a position that enables them to be objective and neutral, and on that basis we make a judgment on their independence. The Advisory Committee has confirmed that none of the outside officers has a material interest with the company—in regard to capital, transactions, or relationships—and has confirmed their independence in accordance with the above standards. The committee's decision has been reported to the Board of Directors, which has designated them as independent officers and reported that designation to the stock exchanges on which the company is listed.

## Officer Remuneration

In 2005, the company formulated the basic policy on officer remuneration, which outlines the method of remuneration for directors, etc. At a meeting of the Board of Directors in February 2012, the policy was revised as follows.

### 1 Role of Officers and Remuneration

The role demanded of officers is to seek to enhance short-, medium-, and long-term corporate value, and officer remuneration shall serve as an effective incentive for them to perform that role.

### 2 Level of Remuneration

The level of officer remuneration shall be suitable for the role, responsibility, and performance of the officer.

### 3 Composition and Other Details of Remuneration Paid to Directors

(1) Remuneration of directors shall be paid within the scope of the remuneration limit approved at the General Shareholders' Meeting.

(2) Remuneration of inside directors shall comprise monthly remuneration and bonus. Monthly remuneration shall comprise fixed remuneration paid in accordance with the post of each individual and performance-linked remuneration. A portion of fixed remuneration shall be allocated to the purchase of shares based on a share-purchase guideline and from the standpoints of reflecting the perspectives of shareholders on management and improving shareholder value over the long term. The amount of performance-linked remuneration shall be determined after evaluating company-wide performance and performance of operating units from the standpoints of motivating inside directors to execute management strategies and reflecting their performance clearly in their remuneration. The amount of bonus to be paid shall be determined in accordance with the post of each inside director after performance evaluation.

(3) Remuneration of outside directors shall comprise monthly remuneration and bonus. Monthly remuneration shall comprise only fixed remuneration, while bonus shall be the same as that of inside directors.

### 4 Composition and Other Details of Remuneration Paid to Audit & Supervisory Board Members

(1) Remuneration of Audit & Supervisory Board members shall be paid within the scope of the remuneration limit approved at the General Shareholders' Meeting and determined through discussions among Audit & Supervisory Board members.

(2) Remuneration of Audit & Supervisory Board members shall comprise only fixed monthly remuneration.

### 5 Assurance of Objectivity and Transparency of the Remuneration System

The company shall assure the objectivity and transparency of the system of officer remuneration by establishing and operating the Advisory Committee comprising a number of outside directors, outside Audit & Supervisory Board members, and inside directors to govern the system of personnel affairs and remuneration of officers.

#### Composition of Remuneration for Directors

Fixed remuneration

Performance-linked remuneration

\* Monthly remuneration of outside directors are fixed remuneration only.

#### Total Remuneration for Directors and Audit & Supervisory Board Members (Fiscal 2016)

	Number of officers* <sup>1</sup>	Total value of remuneration	Base	Bonuses
Remuneration for directors (excluding outside directors)	10	¥467 million	¥405 million	¥62 million
Remuneration for Audit & Supervisory Board members (excluding outside Audit & Supervisory Board members)	2	¥74 million	¥74 million	-
Remuneration for outside officers (outside directors and outside Audit & Supervisory Board members)	7	¥64 million	¥58 million	¥6 million

\*<sup>1</sup> The number of officers included in the total value of remuneration for directors, Audit & Supervisory Board members, and outside officers includes three directors (of which one was outside officer) who retired upon the conclusion of the 216th Annual Shareholders' Meeting.

## Advisory Committee

In February 2005, we established the Advisory Committee to assure objectiveness and transparency in management. It has been defined that this committee will have no more than 6 members consisting of no more than 3 representatives from outside of the company and no more than 3 internal representatives, and that one of the outside representatives will serve as the committee's chairman.

Today, the Advisory Committee has 5 members: 3 representatives from the outside directors and outside Audit & Supervisory Board members as well as the Chairman and the President. In accordance with inquiries from the Board of Directors, the Advisory Committee deliberates on officer candidates and officer remuneration in a fair and appropriate manner and makes reports to the Board of Directors. The committee also deliberates on the independence of outside officer candidates.

## Internal Control System

To secure management legality, soundness, and transparency and to realize its management philosophy, the company has formulated the "Basic Policy on Development of Corporate Structures and Systems for Internal Control System" and the company is applying this policy in an appropriate manner. Specifically, the company has established systems to ensure that directors and their assistants perform their duties in a manner that is compliant to relevant laws and regulations, the articles of incorporation, and other rules. In addition, crisis management provisions have been formulated to limit losses from risks related to investments and natural disasters. The company also defines guidelines for ensuring the independence of Audit & Supervisory Board members and guaranteeing the effectiveness of the Audit & Supervisory Board.

## Independent Auditors

The company has concluded an auditing contract with KPMG AZSA LLC for auditing services based on the Companies Act and auditing services based on the Financial Instruments and Exchange Act, as well as internal control audits based on the Financial Instruments and Exchange Act, and the company is being audited on that basis. The company's audits are handled by 3 certified public accountants: Teruhiko Tanaka, Yoshihide Takehisa, and Yoshihiro Uehara. For each of these auditors, the number of consecutive years of auditing service is seven years or less (as of June 29 2017).

### Compensation for Independent Auditors (Fiscal 2016)

Compensation for auditing services	¥257 million
Compensation for non-auditing services	¥21 million
<b>Total</b>	<b>¥278 million</b>

## Compliance

### Compliance Structure

The company has identified the following three points as its basic policy and is promoting compliance on that basis.

**Fostering of a compliance oriented mentality**

**Compliance efforts through coordination among divisions based on the fundamental policy**

**Promotion of the compliance PDCA cycle**

We have established the Management Ethics Committee, chaired by the President. This committee discusses at the executive level basic compliance policies and all aspects of compliance initiatives by the company, monitors the implementation of compliance-related measures, and confirms activity programs from the following year and thereafter. The Compliance Department operates counseling service counters, distributes information within and beyond the Tokyo Gas Group companies, and promotes a thorough awareness of ongoing activities related to our Code of Conduct, which represents a compliance standard of the Tokyo Gas Group and was revised in April 2017, so as to further meet the expectations of society. The Compliance Department also supports a wide range of compliance-related activities for each department. These include development of compliance promotion systems, encouragement awareness and educational campaigns about the Code of Conduct, and compliance risk reduction measures.

### Compliance Risk Management

Through the effective operation of internal and external advisory systems, we are endeavoring to ensure that compliance-related problems are discovered and resolved quickly so that our corporate self-regulatory processes will continue to function effectively. We monitor the effectiveness of Group compliance promotion activities by conducting regular compliance awareness surveys of all employees. The results of these surveys are reflected in initiatives for the following years. The Compliance Audit Sect. of the Internal Audit Dept. conducts audits of the company and its subsidiaries focusing on the probability that risks will materialize and their degree of importance from the viewpoint of strict compliance with laws, corporate ethics, and social norms. When concerns are identified, the group conducts follow-up audits in the following year to verify progress in tackling those concerns.

## Risk Management System

### Enterprise Risk Management System

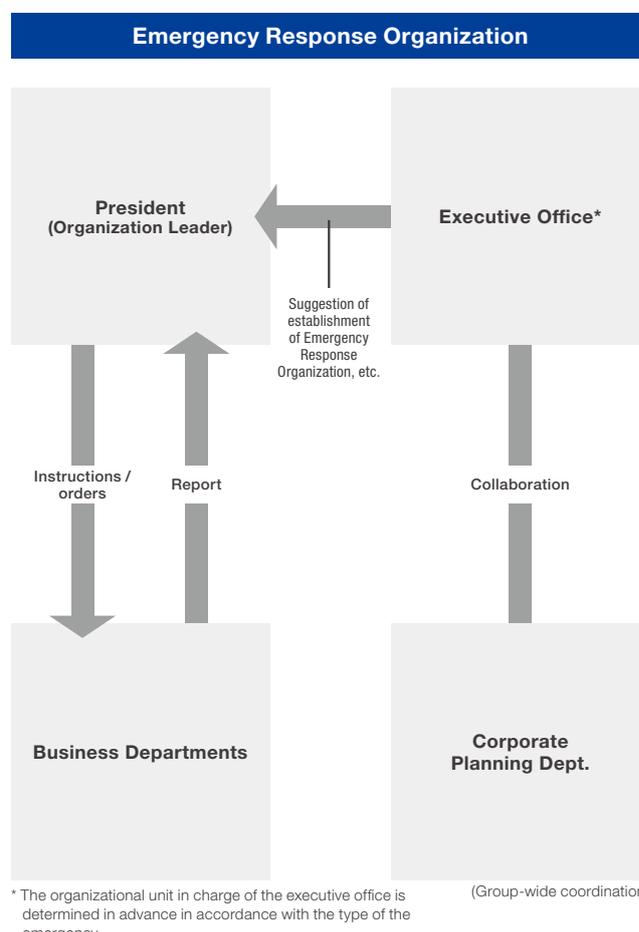

In fiscal 2003, the company established an enterprise risk management (ERM) system and drew up risk management regulations, which include documented rules concerning major risks faced by the group.

The Risk Management Committee was established in fiscal 2008 with the aim of tracking progress regarding the establishment and the operational status of the ERM system as well as improving the level of ERM. The committee periodically undertakes risk assessments and checks on the status of the ERM system. It also reports to the Corporate Executive Committee and obtains the necessary approvals. Moreover, in fiscal 2011, the risk management function was made the responsibility of the Corporate Planning Department, and there has been a framework in place for implementing unified ERM in conjunction with operational management.

Under the framework, around 120 Risk Management Promotion Officers are deployed in the business departments of Tokyo Gas and its subsidiaries in order to promote ERM. Each year, we assess risks and the implementation and improvement status of countermeasures. This system facilitates the steady implementation of the ERM-PDCA (Plan-Do-Check-Act) cycle.

### Crisis Management System

Because the company provides public services that comprise a lifeline, for many years it has also had a crisis management system that serves as a response system in case an accident or other risk-related event actually occurs. Specifically, we have formulated Emergency Response Organization Regulations. In case of crises, including major natural disasters, such as earthquakes, or production or supply disruptions arising from major accidents at pipelines or terminals, as well as influenza, terrorism, failures in mission-critical IT systems, and compliance problems, the Emergency Response Organization responds to the situation immediately in accordance with the Emergency Response Organization Regulations. Periodic training is conducted in relation to major risk response measures. Moreover, the company has also formulated a business continuity plan (BCP), outlining its responses in the event of a major earthquake of the magnitude assumed by Japan's Cabinet Office, a major accident disrupting gas supply, a widespread blackout, an outbreak of influenza, etc. This plan is in place to reinforce the company's risk management system.

## Board of Directors (As of June 29, 2017)

**Tsuyoshi Okamoto**

Director, Chairman

**Michiaki Hirose**Representative Director,  
President**Takashi Uchida**

Representative Director

#### Masato Nobutoki

The company's auditing will benefit from Masato Nobutoki's abundant experience acquired in corporate and local government as well as his deep insight.

### Message from an Outside Audit & Supervisory Board Member

Masato Nobutoki

**Using my experience in the industry, government, and academics, I intend to contribute to Tokyo Gas's value creation.**

#### Appointed as Outside Audit & Supervisory Board Member in June 2017

After working in a major trading company, I served as administrative head of the main office of Government Exhibition Projects for EXPO 2005 Aichi, and have since been involved in various other capacities, such as in the area of community alliance business at a university. In 2007 I joined City of Yokohama and became engaged in city management and various climate change policies in positions such as Director General of the City Growth Strategy Promotion Department and General Manager of Climate Change Policy Headquarters. I have had business relations with Tokyo Gas through a smart grid experiment that City of Yokohama was designated to conduct by the national government in 2010. My impression of Tokyo Gas since that time is that its employees go about their work from a citizen's point of view and are not as arrogant as oftentimes seen with many people in big companies. I think it has much to do with the fact that Tokyo Gas provides special services based on a sales network focused on a vast number of individual households. In the context

of accelerating movement toward local production and local consumption of energy in Japan (and elsewhere), I strongly believe that the community-centered network of Tokyo Gas is a big advantage.

#### Using my experience in interdisciplinary projects, in relation to energy policies

Anticipating diversification of energy supply (such as increases in solar and biomass energy) and a more networked environment, integration of city management, energy policy, and environmental policy will undoubtedly become even more of a major social challenge. Tokyo Gas, as an energy supplier, will be heavily involved with local governments, companies, and citizens. As I have experience in projects to cutting across sections of a major company or a local government that suffered from sectionalism, I would like to use this experience and support information exchange and coordination of different departments or with outside organizations.

Diffusion of renewable energy, electric cars, and other products may change the prevailing concept of energy in addition to changing people's lives. Tokyo Gas may evolve from an energy supplier to a total life service provider. Without staying in a framework of Outside Audit & Supervisory Board Member, I intend to endeavor to help Tokyo Gas become an even more valuable company for the society of the next-generation.
