- 03 LNG has changed society
- 07 Our history
- 09 LNG value chain

19 Tokyo Gas Group FY2018-2020 Medium-Term Management Plan GPS2020

On November 4, 1969, Tokyo Gas became Japan's first company to introduce liquefied natural gas (LNG). It was a big project that was launched with the strong aspiration to stably supply energy that would support Japan's industry and people's lives for a long time as a clean, eco-friendly energy source.

This year marks the 50th anniversary of the introduction of LNG.

The Tokyo Gas Group has been supplying and will continue to supply reassuring energy to everyone.
