

## The Number of Electricity Retail Customers

**As of August 28, 2020, the number of electricity retail customers reached 2.5 million. The Tokyo Gas Group medium-term management plan for FY 2020–2022 sets a target of 3.8 million electricity retail customers. To achieve this goal, we will contribute to enhance customers' lifestyle and business value through providing gas, electricity, and services. We will also create services that make many customers feel secure in our gas, electricity and lifestyle services.**
