Revision of Terms and Conditions of General Gas Supply Plan and Some Selective Plans

Tokyo Gas Co., Ltd. (“Tokyo Gas”) hereby serves notice that it has today made a determination to revise the terms and conditions of the General Gas Supply Plan and some of the selective plans, the details of which are stated below. The new terms and conditions will become effective as of September 1, 2022, and will be applied to the gas charge calculation for meter readings in and after October 2022.

1. Plans affected

- General Gas Supply Plan
- Selective residential plans listed below
 - (1) Zuttomo Gas Explanation
 - (2) Home high-efficiency water heater contract: Yuttari Eco Plan
 - (3) Home Gas Hot Water Floor Heater Contract: Danran Plan
 - (4) Home Cogeneration System Contract: Ecowill de Hatsuden Eco Plan
 - (5) Home Fuel Cell Contract: Enefarm de Hatsuden Eco Plan
- Selective plans for companies and business owners

2. Details of revisions

In order to secure the stable operation of its business, Tokyo Gas has made a determination to change the upper limits of adjustments of average raw material costs per ton, which are calculated under the gas rate adjustment system, from 91,600 yen to 156,200 yen for the Tokyo area, etc. and from 43,760 yen to 74,730 yen for the Gunma and South Gunma areas.

As a transition measure to mitigate the impact of the revision on customers, the figures in the table below will be applied as the temporary upper limits of average material cost adjustments in the gas charge calculation for meter readings in October 2022 to February 2023.

<Temporary upper adjustment limits for calculation of average raw material costs per ton> (Unit: yen)

Month of meter reading	Oct. 2022	Nov. 2022	Dec. 2022	Jan. 2023	Feb. 2023	Mar. 2023 and beyond
Tokyo area, etc.	102,360	113,120	123,880	134,640	145,400	156,200
Gunma/South Gunma areas	48,920	54,080	59,240	64,400	69,560	74,730

3. Future outlook

Although it remains unclear how the revision mentioned above will affect the performance of Tokyo Gas in the current fiscal year, it is expected that its earnings and expenditures will be affected to a certain degree. Tokyo Gas will promptly report the occurrence of any incident that is likely to affect its performance as required.
