

## LNG procurement from Venture Global

Tokyo Gas Co., Ltd.

Tokyo Gas Co., Ltd. (President: SASAYAMA Shinichi, "Tokyo Gas") has decided to procure liquefied natural gas (LNG) from US-based Venture Global (CEO: Michael Sabel).

Venture Global constructs and operates natural gas liquefaction plants in Louisiana, USA, producing LNG from natural gas, including shale gas produced within the United States.

Tokyo Gas will procure approximately 1 million tonnes of LNG annually for 20 years from Venture Global. Through this procurement, we will diversify LNG procurement sources and enable procurement under flexible terms without destination restrictions, thereby promoting stable LNG procurement and expanding LNG trading.

Tokyo Gas' Management Vision, "Compass 2030," emphasizes the transformation of the LNG Value Chain. Tokyo Gas Group is committed to ensuring a stable energy supply by managing the reliability, cost and flexibility of its LNG procurement through diversification
